

Explanation for the source files

Except for `rect.p`, `mt19937ar.c`, and files in EXPOKIT, the source files in this repository were provided by Yoshio Komori (komori@phys.kyutech.ac.jp) to give numerical results in a manuscript. About `rect.p`, see the file “`srock2_copyright`”. About `mt19937ar.c`, see the comment in the file. About EXPOKIT, see the file “`EXPOKIT_copyright`”. These files would be helpful to obtain some results in the data directory.
